Adjusts from 2.5" - 3". Base Metal.

Expandable Bracelet - 6.4mm Balls & 2mm Wire

Adjusts from 2.75" - 3". Base Metal.

Stringing Materials

Fashion Stretch™

Spandex Stretch Wrap Jewelry Cord

Made with durable stretch Spandex, this lightweight, quick-drying material is great for the summer time. Combine versatile Fashion Stretch with 5mm & 10mm flat leather findings to create bracelet wraps, necklaces, or hair ties, or use it with any beads, charms, or sliders with a 5mm hole. Sold by 10 meter (32.8 ft) spool and 1 meter retail ready card. Although flat and 30mm wide on the spool, it curls into a 5mm tube when stretched!

Stringing Materials (continued)

Beadalon® WildFire® Beading Thread

WildFire beading thread features strength and durability with a smooth, thermally bonded coating, to create a superior stringing product that cannot be pierced with a needle. Super strong, waterproof, and near zero-stretch, this cord will not fray at the ends which makes it easy to thread through a needle. WildFire is also colorfast - the color will not come-off on fingers like some other cords. This knottable, supple cord is also great for multi-strand seed bead designs using a bead spinner. Available in Black or Frost color in .006" and .008" diameter. Sold by 20 and 50 yard spools. Made in USA.

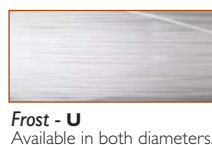

- Will not fray
- Near zero stretch
- Colorfast
- Cannot be pierced with a needle

.006 in./0.015 mm Diameter

Item #	Description

Polaris®

Polaris® Round Beads

Polaris beads feature a special luminous inner glow. Their appearance is similar to our very popular Lunasoft cabochons and they look especially lovely when combined with different materials. Made from polyester resin, each piece is milled separately to achieve a beautiful finish. Available in four sizes and twenty colors. Hole size: approx. 1.9mm. European made.

POL + size code + RN- + color code + -ST

TierraCast® Base Metal

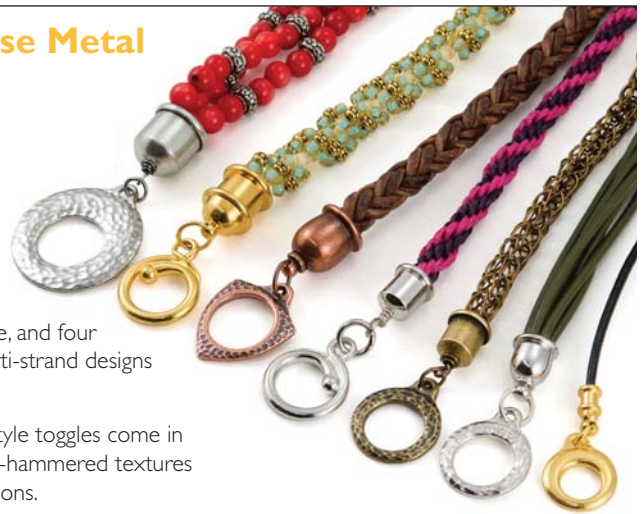

Maker's Collection

Toggles & Cord Ends that Support Fearless Creativity

Inspired by Maker culture, this line of endings opens up practical finishing options for a wide range of designs. These new parts are custom manufactured in China and finished in the United States to meet TierraCast design specifications. They come in finishes to match the entire TierraCast product range, and four sizes to allow a wide array of materials: 2mm cord, kumihimo, Viking knit and multi-strand designs featuring seed beads, pewter beads, leather and more.

The Maker's Collection also includes five new Toggle Sets. These bench jeweler style toggles come in four popular finishes and are perfect partners for our new cord ends. Their hand-hammered textures and graduated sizes make them excellent closures for DIY-inspired jewelry creations.

Jewelry and product photos provided by TierraCast®.

Elegant Elements® Multi-strand Push-pull Clasps

Elegant Elements® clasps are made according to exacting German design, manufacturing, and environmental standards and offer the extravagant appearance of precious metal without an extravagant price. Created to be long-lasting, they are electroplated in either 23K Gold or Rhodium & are Nickel-free. Rhodium has a bright silver color and is known for its hardness and anti-corrosive character. Hole sizes are approx. 1.25mm. Sold in retail-ready packaging. *One per package.*

Hammers

① HAM627

Chasing Hammer with 29mm Domed Face & 13.5mm Ball Pein

Our chasing hammer features a smooth, slightly convex face for use with chasing punches and for flattening as well as a ball pein side for riveting and texturing. Because it's only slightly rounded, the large face has a wider striking area with smooth edges so it won't mar your work. Sold in hangable retail ready packaging.

Item #	Description
--------	-------------

- | | |
|-----------|--|
| 1) HAM627 | Chasing Hammer-Domed 29mm/13.5mm Ball Pein 2.75" wide head, 10.75" overall length. |
|-----------|--|

② HAM628

Large Planishing Hammer with 24mm Domed and Flat Faces

Planishing hammers can be used to strengthen, stretch, and smooth the surface of jewelry-making metals such as silver, gold, stainless steel, and brass. This tool features two highly polished 24mm heads – one flat and one slightly domed. Sold in hangable retail ready packaging.

Item #	Description
--------	-------------

- | | |
|-----------|---|
| 2) HAM628 | Large Planishing Hammer-24mm Domed/Flat Faces 2.9" wide head, 10.5" overall length. |
|-----------|---|

Short 5" Handle!

③ HAM160

1 lb. Brass Ergo Hammer

- 1 lb. weighted head for a solid strike every time
- Short ergo handle for comfort and better striking accuracy
- Flat and domed faces for whatever the job requires

Item #	Description
--------	-------------

- | | |
|-----------|--|
| 3) HAM160 | 1 lb. Brass Ergo Hammer-Domed/Flat Faces 3.75" wide head, 6.5" overall length. |
|-----------|--|

④ HAM6410

Nylon Wedge & Round Hammer

Nylon hammers are durable but will not mar your work like a metal hammer can. This tool is great for working in tight areas as it features a wedge on one end and a rounded cone on the other.

Item #	Description
--------	-------------

- | | |
|------------|--|
| 4) HAM6410 | Nylon Hammer-Wedge/Round 4" wide head, 10" overall length. |

PATENT PENDING

Whammer™

wire jewelry hammer with 2 interchangeable heads

3 tools in 1!

- Features a fixed convex steel head plus interchangeable nylon flat head & steel dapping head
- Short ergo handle enables a perfect grip and improved striking accuracy
- Extra weight in the head reduces the striking power needed to achieve great results

Jewelry by Linda Jones, England

Item #	Description
1) HAM500	Whammer Interchangeable Hammer with Nylon Head & Dapping Head

Hammers (continued)

Small Planishing Hammer with 13mm Domed and Flat Faces

Planishing hammers can be used to strengthen, stretch, and smooth the surface of jewelry-making metals such as silver, gold, stainless steel, and brass. This tool features two highly polished 13mm heads – one flat and one slightly domed. Sold in hangable retail ready packaging.

Item #	Description
1) HAM629	Small Planishing Hammer-13mm Domed/Flat Faces 2.5" wide head, 9.25" overall length.

Small Raising Hammer with 2 x 13mm & 6 x 13mm Faces

Raising hammers are used in jewelry-making to create seamless forms in sheet metal without thinning the gauge of the metal. This petite version features two small, slightly rounded heads that are 13mm wide. Sold in hangable retail ready packaging.

Item #	Description
2) HAM630	Small Raising Hammer - 2 x 13mm & 6 x 13mm Faces 2.6" wide head, 9.5" overall length.

Narrow Texturing Hammer with 2 x 13mm & 4 x 14mm Faces

Texture hammers are an easy way to create eye-catching patterns on non-ferrous metal. Try using them on jewelry components or wire to lend additional visual flair to your projects. This hammer features two narrow, highly-rounded heads that can be used to create a texture comprised of small oval impressions. Sold in hangable retail ready packaging.

Item #	Description
3) HAM631	Narrow Texturing Hammer - 2 x 13mm & 4 x 14mm Faces 2.6" wide head, 9.25" overall length.

Small Texture & Planishing Hammer with 19mm Texture & Smooth Faces

Texture hammers are an easy way to create eye-catching patterns on non-ferrous metal. Try using them on jewelry components or wire to lend additional visual flair to your projects. Planishing hammers can be used to strengthen, stretch, and smooth the surface of jewelry-making metals such as silver, gold, stainless steel, and brass. This tool features one texture face and one highly polished flat face for planishing. Sold in hangable retail ready packaging.

Item #	Description
4) HAM632	Small Texture & Planishing Hammer - 19mm Faces 2.8" wide head, 9.5" overall length.

Sharp Texturing Hammer with Two 14.5mm Straight Faces

Texture hammers are an easy way to create eye-catching patterns on non-ferrous metal. Try using them on jewelry components or wire to lend additional visual flair to your projects. This hammer features two sharp-edged, straight 14.5mm faces to create textures comprised of thin lines. Sold in hangable retail ready packaging.

Item #	Description
5) HAM633	Sharp Texturing Hammer - Two 14.5mm Straight Faces 2.9" wide head, 9.5" overall length.

Hammers (continued)

Small Embossing Hammer with 8 and 10mm Faces

Embossing hammers feature domed faces which can be used to create raised texture (relief) in metal by hammering from the reverse side – a technique also known as repoussé. This petite tool has faces measuring 8 and 10mm in diameter. Sold in hangable retail ready packaging.

① HAM634

Item #	Description
1) HAM634	Small Embossing Hammer - 8 & 10mm Faces 2.6" wide head, 9.25" overall length.

The Beader's Guide to Jewelry Design: Beader's Guide to Jewelry Design

by Margie Deeb

Once beaders have mastered the basics, they're eager to take the next step: creating their own original pieces. This is their must-have resource for understanding the fundamental principles of visual design, from scale, proportion, and rhythm to texture, movement, drape, and color. Exercises, reader challenges, and lavish photos enhance understanding and design success. Softcover, 152 pages, measures: 8-1/2" x 11".

Soldering Beyond the Basics

by Joe Silvera

Respected teacher and jeweler Joe Silvera shares key soldering techniques that help readers create 17 high-end designs — without a professional jewelry studio! Joe is the perfect coach for jewelry artists who want to practice and improve their skills, work with mixed metals and materials, and discover new ways to connect and finish jewelry pieces. Although this new book includes some basic projects, it teaches intermediate skills that students need as they advance their craft. Softcover, 112 pages, measures: 8-1/4" x 10-3/4".

Twenty to Make: Pewter Jewellery

by Sandy Griffiths

Pewter is a soft metal that has been used decoratively for hundreds of years and has enormous versatility and potential for contemporary crafters and jewellery makers. It's relatively cheap to buy; is soft, malleable and easy to use; and requires very little in the way of equipment or skill. This book contains 20 simple, easy-to-make jewellery pieces, including brooches, necklaces and bracelets, all based on the simplest technique for embossing sheet pewter - low-relief embossing. The pewter is combined with semi-precious stones and beads; glued to other materials such as wood, plastic and little scraps of fabric; and colored with glass paints, giving the finished pieces a bright, colorful, contemporary feel. Each project is accompanied by a beautiful, full-color photograph of the finished piece; clear, step-by-step instructions; lists of the materials and equipment needed; and templates (where required). Two versions of each project are included, each made by following the same step-by-step instructions but by varying the embellishments, materials or colors used. Softcover, 48 pages, measures: 6-1/10" x 8-1/2".

Behind the Brooch: A Closer Look at Backs, Catches, and Pin Stems

by Lorena Angulo

The focus of this book is on the side of the brooch that usually isn't noticed: the reverse. When we encounter an attractive piece of jewelry, our instinct is to admire the front, but when we turn it around, it often reveals a secret. The author lets us in on that secret, typically only shared between the maker and the wearer. Clever brooch makers often adorn the back with items meant to complement the front, or the backside may have a unique, intricate design all its own. When you flip a brooch over in your hand you may find a surprise message, a hidden pattern, or even an unlikely foreign implement. The result is a better understanding of the artist's abilities and personality. Now, you can judge for yourself what the 128 artists represented in this volume had in mind, and, if you are a jewelry maker, you may be inspired to leave your own unique mark. Hardcover, 176 pages, measures: 9-1/8" x 8-1/8".

How to Show & Sell Your Crafts: How to Build Your Craft Business at Home, Online, and in the Marketplace

By Torie Jayne

Using highly-visual, step-by-step tutorials, this book is packed with helpful branding, selling, and merchandising tips that no serious crafter should be without. Using the workspaces, shops, salons, and "through-the-keyhole" profiles of some of the world's most successful crafters, readers will learn the best ways to merchandise and sell their items online, at craft fairs, markets, pop-up events, exhibitions, and in shops. Plus, you'll learn how to build a personality-driven brand, create a memorable blog or website, improve your photography skills, and analyze your results to help move your business forward into the future. You start by learning how to optimize your workspace to improve creativity and profitability, then how to build a strong brand name and online presence across multiple social media platforms. Lastly, learn how to get your work out into the marketplace, engage customers, and use the insider secrets offered in this book to set yourself up for success and grow your sales! Softcover, 144 pages, measures: 7-1/2" x 9-3/4".

Creative Metal Forming

by Betty Helen Longhi & Cynthia Eid

Two accomplished metalsmiths, both with extensive teaching careers, have joined forces to provide a comprehensive survey of the ways to form sheet metal. The 256-page text covers a huge swath, from a basic dapped disk through synclasting, anticlasking and spiculums to a raised vessel. Along the way, special attention is given to anticlastic forming and the vocabulary first introduced by their mentor, Heikki Seppä. *Creative Metal Forming* includes 35 detailed exercises to explain the basics and as well as advanced nuances of each category. Metalsmiths Michael Good and Nancy Linkin have each contributed demonstrations of their forming techniques. Hard cover with jacket, 256 pages, measures 8-1/2" x 11".

Craftwork Techniques of the Native Americans

by Scott Sutton

Scott Sutton's latest craft book expands on the knowledge and skills presented in his first book, *Beadwork Techniques of the Native Americans*. This volume presents eight new beadwork projects in which Scott includes personal, little-known tips that he has developed from his extensive experience. Each item has easy-to-follow, step-by-step instructions that are accompanied by full-color photographs and detailed illustrations. Projects include medallions, belt buckles, barrettes, loom-beaded belts, scalp feathers, flat fans, moccasins, and small dance bags. Each section contains information on selecting the necessary materials, tools, and supplies. Both novice and experienced crafters are guaranteed many hours of pleasure creating these beautiful Native American objects. Beadworkers can use their new skills to produce other items or create their own designs. Softcover, 104 pages, measures: 8-1/2" x 11".
